²⁾ On the output side, the blade is turned to a nominal length of 10 mm

³⁾ Size 0 modified according to JCIS 0 (Japanese Camera Industrial Standard)

⁴⁾ Without bore hole

Kraftform Micro master screwdriver

The master screwdrivers are practical companions for everyday life. With their clip, they can be put in your pocket so that you always have them at hand. The screwdrivers are neatly arranged in a useful insert pouch. The required screwdriver can be found quickly thanks to the colour-coded clips (Take it easy).

The refined screwdriver for electronics technicians

The Kraftform Micro, with its three zones and their specific arrangement, satisfies these requirements perfectly. The free-turning cap that provides support for the hand works with these advantages, enabling quick and easy precision work.

In robust pouch

With sturdy roll-pouch for tool protection and easy carrying.

"Take it easy" Tool Finder

Screwdrivers with "Take it easy" tool finder: colour coding according to profile and size stamp.

Zyklop Pocket

New Zyklop ratchet with integrated bit magazine and combination mounting for bits and sockets.

Combination tool mounting

The magnetic direct mounting is suitable for $\frac{3}{8}$ " sockets as well as $\frac{1}{4}$ " bits without the need for an adapter.

Swiveling bit magazine

The swiveling bit magazine allows for the bits to be removed easily in almost any situation and cannot be lost. The bits are safely stored.

With integrated bit magazine

A captive, freely swivelling bit magazine for 12 bits ($\frac{1}{4}$ ", 25 mm length) is integrated in the handle of the compact Zyklop ratchet.

Freely pivoting ratchet head

The ratchet head pivots freely and can be locked into any defined position by using the slide switch that is positioned on either side. It is even possible to work in very confined and difficult-to-access areas with enhanced hand clearance. The predefined locking at 0° , 15° and 90° , both to the right and left, ensure safe working without any slipping of the ratchet head.

8009 Zyklop Pocket Set 3

8009 Zyklop Pocket Set 4, metric/Imperial

- 27-piece Zyklop Pocket set with bits, sockets, universal holder and extension
- Compact Zyklop ratchet with integrated bit magazine
- The magnetic direct mounting simultaneously turns the $\frac{3}{8}$ " ratchet into a bit ratchet screwdriver with $\frac{1}{4}$ " bit mounting
- Freely pivoting ratchet head with 5 predefined locking positions
- Fine tooth reversible ratchet (72 teeth) for a low return angle of only 5°
- Captive and freely swivelling bit magazine for easy removal and secure storage of the bits
- Universal holder with stainless steel sleeve and strong permanent magnet, can be used as extension
- Space-saving and safe storage in a textile box, which can also be docked onto the Wera 2go system

Never again barking up the wrong tree!

Bit set especially for wood applications – with holding function for TORX® screws.

The HF profile

The HF tools developed by Wera are ideal because they feature an optimised geometry of the original TORX® profile. The wedging forces resulting from the surface pressure between the drive tip and the screw profile mean that TORX® screws made according to Acument Intellectual Properties specifications are securely held on the tool!

tions are securely held on the tool!

Rapidaptor with ringmagnet

The floating, free-turning magnetic sleeve securely holds even large and heavy screws to enable immediate application. There is no need to hold the screw when applying the tool – something which can be dangerous and painful. Also ideal for overhead work.

Also for ASSY and SPAX T-STAR plus screws

The Wera 867 TX HF bits are also suitable for Würth ASSY screws as well as Altenloh SPAX T-STAR plus screws.

At the workplace

The Bit-Checks can be positioned upright at the workplace so the tool is always quickly to hand.

Bit-Check 6 Wood TX HF 1 SB

**NOW AVAILABLE
IN RETAIL PACKAGING**

6 bits, with holding function for TORX® socket screws as per the specification Acument Intellectual Properties; also suitable for Würth ASSY screws as well as Altenloh SPAX T-STAR plus screws. With "Take it easy" tool finder: colour coding by size.

The Bicycle Set 3 A

The Bicycle Set 3 A is the practical assortment for independently carrying out assembly work and repairs on road bikes, mountain bikes and e-bikes. Particularly practical: one small case with zip to take individual tools with you in your jersey pocket. Less weight on bike tours.

Chain tools

With the included chain tool, chains can be loosened and reconnected; ideal for opening and closing bicycle chains. Suitable for single-speed chains up to 12-speed.

Soft pouch

The textile pouch fits perfectly into jersey pockets and is, therefore, also ideal for racing cyclists without panniers or saddle bags. On the back, there are also two convenient loops for CO₂ cartridges. The cartridges are not included.

The 9503 tyre lever

The 9503 tyre lever can be used as a valve ejector for Sclaverand (French) valves and as a bleeder valve for car valves.

No liability for printing errors or mistakes
